and it should then be clear, if everything the works, and burns freely. was properly done, but it should not be bottled until the next fall; then it will

use, however good it may be,

ones, which scarcely last longer than a day, and are then thrown away to be replaced by fresh ones. Herds and ways be found that the absorbing power bake till soft; then squeeze through a five dollars to upset everything." replaced by fresh ones. Herds and flocks are not common in Japan. This is readily accounted for by the fact that the people live chiefly upon fish and vegetables, and their garments are either cotton or silk. In addition to cats and dogs, the only domestic animals possessed by the Japanese are horses and horned cattle. The horses were originally brought from the Corea, and are larger and stronger than those of China; they are docile but timid, and quite useless for cavalry. They ced exclusively upon rice straw in ced exclusively upon rice straw in classes of grain; their hoofs wear away or rapidly that the best horses are users after their sixth year. In 1870 the whole number of horses in the empire whole number of horses in the empire whole number of horses in the same way.

this amount. One hundred pounds of dry surface will absorb and hold about forty pounds of water, without any running out. Some of our clay soils will hold as much as seventy pounds in the same way.

enough until it has become tolerancy thick, and all the watery appearance thick, and all the watery appearance thick, and all the watery appearance thick, and cork them securely when cold. The garlic must be peeled, bruised, and tied up in a bag; all the spice must be ground; the quantil the spice must be ground; the quantil the spice must be ground; the spice must be grade movement I do not undertake to determine; but an acidulated old bacherons will hold as much as seventy pounds in the same way. The latter are indispensable to the cultivation of rice, and are frequently used as pack oxen. Cow's milk is shunned as "white blood," and the Japanese are consequently unacquainted with butter or cheese. Asses are rare, and goats and pigs are only found in the seasons that the seasons are either warmer; or colder, or more rainy than when they were young. Their comments are often ridiculed, because most persons believe that no very marked.

The Change of Climates.—Old peotities must be peeled, bruised, and tied up in a bag; all the spice must be ground; the quantities may be increased or diminished according to taste. We have kept sauce made from this receipt three years.—Rural New Yorker.

FASHIONS HAVE frequented by Europeans.

grain fed to a horse passes from him undigested and he in consequence becomes thin and hide-bound and rough and staring-coated, it would be advised by the composition of a country than the coated and rough and staring-coated, it would be advised by the coated and rough and staring-coated, it would be advised by the coated and rough and staring-coated at the coated and rough and staring-coated at the coated at the coate able to give him a change of food, in others, Carrots or boiled potatoes, fed nearly cold, with a handful of salt sprinkled cold, with a handful of sait sprinkled sand years ago the climate of Italy was on them, scalded wheat-bran, scalded far colder than now. The Loire and may be given daily in the feed.

IMPORTANCE OF WARM HENNERIES.-It is well known that the fattening process goes on much faster in September corn, etc., is more largely used in cold being "burned" up in the circulation. From this we can see the importance of warm benneries, prolonging the autumn weather into the colder months, up to the time when the prices for fat poultry are the highest.

The guinea pig is extensively used in Peru as an article of food, not merely by the higher classes as a delicacy, but mainly by the poor, from its cheapness and abundance. It is an entirely herbibivorous animal, and a clean feeder, being there chiefly maintained on green lucerne or trefoil, but it would, doubtless, thrive equally well on cabbage or lettuce leaves, and most sorts of m lettuce leaves, and most sorts of green garden stuff; in short, on the same food as the rabbit, to which it has many

This Cut Illustrates the manner of Using DR. PIERCE'S

This instrument is especially designed for the DR SACE'S CATARRE PEMEDY

DR SAGE'S CATARRH PEMEDY.

It is the only form of instrument yet invented with which fluid medicine can be carried high up and perfectly applied to all parts of the affected na sai passages, and the chambers or cavities communicating therewith, in which sores and there frequently exist, and from which sores and there frequently exist, and from which the external discharge generally proceeds. The want of success in treating Catarch heretofore has arisen largely from the impossibility of applying semelles to these cavities and chambers by any of the ordinary methods. This obstacle in the way of effecting carres is entirely overcome by the invention of the Douche. In using this instrument, the Fuld is carried by its can weight, (no sauding, forcing or pumping being required,) up one nostril in a full gently flowing stream to the kighest pointion of the masal passages, passes into and thoroughly clearseall the tubes and chambers connected therewith, and flows out of the opposite nestril. Its use is pleasant, and so simple that a child can understand it. Full and explicit directions accompany each instrument. Then wed with this instrument, Dr. Sage's Catarra Remedy cares pe-

few applications.

Symptoms of Catarrh. Frequent head-

Symptoms of Catarrh. Frequent hendache, discharge failing into throat, sometimes profase, watery, thick muchs, purulent, offensive, &c. In others a dryness, dry, watery, weak or inflamed eyes, stooping up or obstruction of nassi passages, ringing in ears, deafness, hawking and conching to clear throat, ulcerations, scabs from nicers, voice altered, masil twang, offensive breath impaired or total deprivation of sense of smell and liste, dixinass, muntal depression, loss of appetite, indirection, enlarged tonsils, tickling cough, &c. Only a few of these symptoms are likely to be present in any case at one time.

Dr. Sage's Catarrh Remedy, when used with Br. Pierce's Nasni Bouche, and accompanied with the constitutional treatment which is recommended in the pamphlet that wraps each bottle of the Remedy, is a perfect specific for this loathsome disease, and the proprietor offers, in good faith, \$500 reward for a case be can not cure. The Remedy is mild and pleasant to use, containing no strong or cancile drurs or poissons. The Caterib Remedy is mild and pleasant to use, containing no strong or cancile drurs or poissons. and pleasant to ese, containing no strong or casetic drups or poisons. The Catarrh Remedy is sold at 50 cents, Douche at 50 cents, by all Bruggists, or either will be mailed by proprietor on receipt of 60 cents. R. V. PIERCE, M. D., Sols D.——istor, BUFFALO, N. Y.

Walker's California Vinegar Bitters are a purely Vegetable EFAIl persons who have to perform long and hard preparation, made chiefly from the nalabor, and while doing it, are often exposed to sudded tive herbs found on the lower ranges of the state as in a content exposed to studie the Sierra Nevada mountains of California, the medicinal properties of which are extracted therefrom without the use of Alcohol. The constion is almost mable health and vigor. Those who are accustomed of Alcohol. The question is almost to drink ice water during the summer, should neve daily asked, "What is the cause of the omit to add some Swedish Bitters to it. unparalleled success of VINEGAR BIT-Persons given to sedentary life should use the TERS?" Our answer is, that they remove the cause of disease, and the patient recovers his health. They are the great good health and good spirits.

covers his health. They are the great blood purifier and a life-giving principle, a perfect Renovator and Invigorator L' To the Ladies the Swedish Bitters must especially be recommended. Because its use contributes most essentially to preserve the regularity of the physioloof the system. Never before in the gical functions, peculiar to the delicate female con-stitution and thus proves an effectual barrier against those innumerable Nervous and Blood Diseases, which now-a-days have grown so frequent as to be taken by many for Eve's natural inheritance history of the world has a medicine been compounded possessing the remarkable qualities of VINEGAR BITTERS in healing the

sick of every disease man is heir to. They are a gentle Purgative as well as a Tonic, But the Swedish Bitters does not only secure reheving Congestion or Inflammation of good health; it also effects the full development of the female body, and of its beauty by perfect forms and fine complection and color. The properties of Dr. Walker's Vinegar Bitters are Aperient, Diaphoretic, Carminative, Nutritions, Laxative, Diuretic, Sedative, Counter-Irritant, Sudorific, Altera-

COSMETIC AND TOILET ARTICLES

Thus the Swedish Bitters has become one of the

Farmers and their families, who have tried Swedish Bitters, prefer it to all similar articles. For them it proves beneficial in various ways. In Summer, when their calling requires them to often endure the intense heat of the sun, while per-forming hard work, they are induced to be not suf-

ficiently cautions in satisfying their burning thirst by water, or in sating fruit not yet ripe, &c. Thus farming people are very liable to suffer from sun stroke. Fever, Dysentery, Cholers, &c., &c. The regular use of the Swedish Bitters makes these dangerous influ

In Winter, during the time of rest, many country people, trying to indemnify themselves for past pri-vations are very spi to often overload their stomachs and thus impair their digestive organs—the roots of the tree. The use of the Swedish Bitters prevents

As a matter of course, in case of sickness, the pa-tions should avoid food not agreeing with him or such, as is known, to be difficult to digest or unsuls-able to the disease in question. The rule: "Be moderate in all you cat, drink or do, is strictly to be observed.

HOW TO TAKE SWEDISH BITTERS The Swedish Bitters shall only be taken in the ab

ce of inflammatory symptoms. Grown persons take one tablespoonful three times per day, before or after meals, pure or diluted with

Persons under 20 years, two-thirds of that quantity " 15 " one-haif " " Children from 6 years upwards, one-eighth of that Persons accustomed to chew tobacco, should ab-stain from it as much as possible, while using Swe-dish Bitters; they may substitute some flowers of

chammomile or root of calamus, but then swallow the salvia, instead of spitting it away. In the same way Persons afflicted with dyspepala must not eat hot

Persons amicted with dyspepais must not eat hot bread or cakes, or fator salt meats, but should take moderate exercise in free air voiding all sudden chan-ges of temperature, all intemperance in eating and drinking, and all undue mental excitement, by which they will contribute largely to the effectiveness of the Swedish Bitters. R. B .- Should the Swedish Bitters not suit all tastes

R. H.—Should the Swedien Patter, or can be diluted it may be taken with some sugar, or can be diluted with some sugar-water or syrup. Having acquired by purchase the recipe and the or-Having acquired by purchase the recipe and the or-clusive right of preparing the Only Genuine Swedish Bitters, herefolors prepared by Eugene Schoening, late U. S. Army Surgeon, we have, in order to frus-trate fraud and deception, the name of E. Schoening-burnt into the glass of each bottle and the envelope around it marked by E. Schoening's and by our own name. Bottles without these marks are spurious.
